DETAILED ACTION

Allowable Subject Matter

Claims 13-16 are allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 13-16, the prior art fails to teach an image sensing system having a control unit for sending a command to a selected sensor unit to set the selected sensor unit in a ready state and a command to each other sensor unit to cause those other sensor units each to set itself in a sleep state, wherein lamps indicating the state of the sensor unit blink during a transition in to the ready state and keep lighting after being in the ready state as claimed in independent claim 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
